

GAS CABINETS NONSTANDARD

Gas cabinets are used to build-in the gas meters and the gas valves.

We make cabinets according to received designs, adjusting dimensions and connections to the conditions existing in the place of assembly. Thanks to this, the assembly of cabinet and accessories is simple and doesn't require a lot of time and work.

Standard execution:

- Cabinets made of steel sheet lacquered with [Facade type polyester powder paint](#). Full door. The standard color is yellow (RAL1018).
- ENERGY lock
- Dimensions according to received designs

POSSIBILITY OF IMPLEMENTATION

GALVANIZED STEEL SHEET

Lacquered with **Facade** type polyester facade paint. Solution resistant to atmospheric condition and UV radiation
