

CABINET FOR SPARE SPRINKLERS

The sprinkler cabinet is used to store spare sprinklers and a key.

Spare sprinklers must be stored on site as required, allowing for the prompt replacement of a damaged sprinkler or one that has operated. The lack of holes in the shelves allows for the placement of any number of sprinklers and wrenches and their even distribution.

Number of sprinklers in the system	Recommended Number of Spare Sprinklers
< 300	6
300 – 1000	12
> 1000	24

Standard execution:

- Cabinets made of steel sheet lacquered with [Facade type polyester powder paint](#). Full door appropriately marked with the sign "Backup Sprinklers". The standard color is red (RAL 3000).
- PATENT lock

Cabinet symbol	Height [mm]	Width [mm]	Depth [mm]	Number of shelves	Distance between the shelves [mm]
S-SO-390x240x130	390	240	125	2	130
S-SO-500x500x300	500	500	300	4	100
