

FIRECAB FIRE EXTINGUISHER BOX

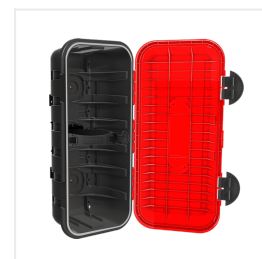

Firecab fire extinguisher box is a durable and cost-effective solution for protecting fire extinguishers from damage and ensuring they are readily accessible in case of fire emergency.

Product features:

- Made of polypropylene: lightweight, durable, easy to install, does not rust, requires no maintenance
- Injection molding process provides precise and smooth surface that is easy to clean
- UV-resistance, resistant to discoloration and fading
- Sealable cover
- Ergonomic nylon handles
- Polycarbonate inspection window
- Inner PVC seal for better protection

TÜV RHEINLAND certification:

- Flammability (Flame Speed)
- Water and dust impermeability (IP59K)
- Resistance to hydrocarbons and lubricating oils
- Accelerated aging (UV rays)
- Compression (flow rate 12,000 N)

Code	Fire extinguisher	Inspection window	Dimensions H x L x D [mm]	Weight [kg]	Ring diameter [mm]
SG-TWORZYWO-6-E0802	GP-4 kg, GP-6kg	YES	620 x 293 x 213	2,05	150-170
SG-TWORZYWO-6-E0806	GP-4 kg, GP-6kg	NO	620 x 293 x 213	2,05	150-170
SG-TWORZYWO-12-E0843	GS-5kg, GP-9 kg, GP-12 kg	YES	874 x 334 x 252	3,77	170-190
