

METAL SUCTION BASKETS

Metal suction baskets are designed for suction hoses to block larger solid impurities that may damage the pump during operation.

The suction basket is made of metal and has holes that block dirt. Designed to be attached to a hose or with a connection cap.

suction fire hoses 52 pcv	Suction strainer 52 or suction strainer 52 with a cap
suction fire hoses 75 pcv	Suction strainer 75 or suction strainer 75 with a cap
