HYDRANT VALVE 25 BRASS WITH A CAP

The hydrant valve 25 is made of brass with a rotating base.

Hydrant valve ZH 25-MS manufactured by SUPRON 3:

- 100% inspection of the execution and tightness
- working pressure 16 bar
- Polish production
- highest quality
- solidity and reliability of operation
- simplicity and shorten the time of annual reviews

Thanks to the rotary cap, the valve is screwed directly onto the connection pipe without the use of a 1 “muff.
