

WV TYPE PRESSURE FIRE HOSES WITH PCV INSERT FOR PUMPS

Product symbol	Product code
WV-52-20-ŁA	S-WM52-20-V-A
WV-75-20-ŁA	S-WM75-20-V-A

WV type pressure fire hose for fire pumps and autopumps with a PVC insert. Diameter ϕ 52 mm and 75 length 20m.

WV type pressure fire hoses are manufactured from the highest quality hose tape with a PVC insert.

Execution:

- hoses in accordance with national and European requirements
- round-woven from high-quality polyester yarn
- inner insert made of high quality PVC – resistant to abrasion, smooth and flexible
- innovative technology of connecting the hose with the connector eliminating the hose wiping at the end of the connector sleeve, improving ergonomics and aesthetics – solution protected by the PPR law No. 62999

The innovative technology of connecting the hose with the connector by bush overlapping ensures:

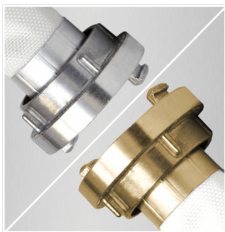

- 100% tightness on connecting the tape with the connector
 - resistance to hose wiping at the end of the connector sleeve
 - improving ergonomics and aesthetics
- The solution is protected by the UPPR (Polish Patent Office) law No. 62999*

Braid	round-woven from high-quality polyester yarn	
Inner insert	PVC resistant to abrasion, smooth and elastic	
Type of fire-hose	WV-52-20-ŁA	WV-75-20-ŁA
Inner diameter	52 mm	75 mm
Length	20 m	

Connectors	Made of aluminium	
Working pressure	1,5 MPa	
Bursting pressure	4,5 MPa	
Working temperature	-30°C +50°C	
The weight of the hose with connectors	5,3 kg	8,3 kg

POSSIBILITY OF IMPLEMENTATION

HOSE COUPLING

- aluminum - standard
- brass
