

## HYDRANT VALVE 52

Hydrant valve type ZH52 with pressure fire hose 52 and nozzle is the basic equipment of the internal hydrant. Output adapter is designed for direct connection of the fire hose 52.

### Technical data:

- Nominal diameter – 50 mm
- Nominal pressure – 16 bar (1,6 MPa)
- Connection thread – G2
- Output – adapter 52-T
- Circle diameter – 100mm
- Weight – 0,73 kg
- Body material – aluminum alloy
